

# Canadian Anaesthetists' Society Journal

## Index of Authors

VOLUME 30, 1983

- Abrams L*, see *Gotta AW*, jt. auth.
- Alexander JP*. Comparison of Bain and Magill circuits (abst.), 309
- Anthonisen NR*, see *Foley JE*, jt. auth.
- Arentzen CE*, see *Rankin JS*, jt. auth.
- Aronson HB*, see *Vatashsky E*, jt. auth.
- Ashton JC*, see *Dunn GL*, jt. auth.
- Avram MJ*, see *Fragen RJ*, jt. auth.
- Axelsson JE*, see *Bylsma-Howell M*, jt. auth.
- Bali A*, see *Okasha AS*, jt. auth.
- Barer MR*, *McAllen MK*. Direct challenge test in local anaesthetic hypersensitivity (abst.), 102
- Bates CP*. Colour coding of drug labels (Correspondence), 109
- Beekman JF*, see *Knodel AR*, jt. auth.
- Benacerraf R*, see *Chastre J*, jt. auth.
- Bennett G*, see *Stanley TH*, jt. auth.
- Bennett KJ*, see *Dunn GL*, jt. auth.
- Berger JL*, see *Caramella JP*, jt. auth.
- Berman L*, see *deLange S*, jt. auth.
- Bessette MC*, see *Townsend GE*, jt. auth.
- Bevan DR*. Neuromuscular blocking drugs (Refresher course outline), S56
- and *Donati F*. Anticholinesterase antagonism of succinylcholine phase II block (Editorial), 569
  - Succinylcholine apnoea: attempted reversal with anticholinesterases (Clinical report), 536
  - see *Futter ME*, jt. auth.
  - see *Gyasi H*, jt. auth.
  - see *Sutherland GA*, jt. auth.
- Bevan JC*, see *Sutherland GA*, jt. auth.
- Biehl DR*. Resuscitation of the newborn at delivery (Continuing medical education), 94
- *Côté J*, *Wade JG*, *Gregory GA*, *Sitar D*. Uptake of halothane by the foetal lamb *in utero*, 24
  - *Yarnell R*, *Wade JG*, *Sitar D*. The uptake of isoflurane by the foetal lamb *in utero*: effect on regional blood flow, 581
  - see *Yarnell R*, jt. auth.
- Birkhahn JH*, *Tadmor C*, *Simon K*. Experience with parent's presence during anaesthesia induction in children (Correspondence), 679
- Blain R*, see *Donati F*, jt. auth.
- Blajchman MA*, *Herst R*, *Perrault RA*. Blood component therapy in anaesthetic practice: Review article, 382
- see *Kelton JG*, jt. auth.
- Blanc VF*. Anticholinergic premedication for infants and children (The oculocardiac reflex) (Correspondence), 683
- *Hardy J-F*, *Milot J*, *Jacob J-L*. The oculocardiac reflex: a graphic and statistical analysis in infants and children, 360
- Blanck TJJ*, see *Kripke BJ*, jt. auth.
- Blanloeil Y*, *Paineau J*, *Vissett J*, *Dixneuf B*. Intraoperative pulmonary tumor embolism after hepatectomy for liver carcinoma, 69
- Bonet JF*, see *Friesen RM*, jt. auth.
- Boscoe MJ*, see *deLange S*, jt. auth.
- Bouchama A*, see *Chastre J*, jt. auth.
- Boulanger M*, see *Hardy JF*, jt. auth.
- see *Paiement B*, jt. auth.
- Bourke JB*, see *Healy HM*, jt. auth.
- Bradford CR*, see *Ong BY*, jt. auth.
- Bridenbaugh LD*. Comparison of crystalline and liquid tetracaine (abst.), 220
- Regional anaesthesia for outpatient surgery, a summary of twelve years' experience (Continuing Medical Education), 548
- Brooks GZ*, *Donchin Y*, *Collins JG*, *Kitahat ALM*, *Jefferson SA*. Epidural morphine does not affect the duration of action of epidural 2-chloroprocaine following Caesarean section, 598
- Browne RA*, *MacDonald S*. A vapourizer interlocking system (Technical Communication), 653
- Brunet D*, see *Moffat JA*, jt. auth.
- Brymer JF*, see *Khaja F*, jt. auth.
- Buckingham W*, see *Phipps JA*, jt. auth.
- Burrows FA*. Epidural anaesthesia and pulmonary hypertension (Correspondence), 445
- Bussell JA*, see *Moffitt EA*, jt. auth.

- Bylsma-Howell M, Riggs KW, McMorland GH, Rurak DW, Ongley R, McErlane B, Price JDE, Axelson JE. Placental transport of metoclopramide: assessment of maternal and neonatal effects, 487
- Cade F. Thromboembolism in the critically ill (abst.), 220
- Calverley RK, Maltby JR. The Anesthesia History Association (Correspondence), 564
- Camarillo D, see Tremper KK, jt. auth.
- Capuano C, see Wolf GL, jt. auth.
- Caramella JP, Malbezin S, Couderc E, Berger JL, Desmonts JM. L'anesthésie chez les sujets atteints de syndrome de pré-excitation ventriculaire (Clinical report), 185

# Canadian Anaesthetists' Society Journal

## Index of Subjects

VOLUME 30, 1983

### Airway

- obstruction, upper, cardiopulmonary bypass prior to induction of anaesthesia in management of: clinical report (Jensen, Milne and Salerno), 270
- *see also* Equipment
- Alfentanil, *see* Anaesthetics, Intravenous; Analgesics
- Aminophylline, *see* Pharmacology
- Amitriptyline, *see* Ataractics, antidepressants, tricyclin
- Anaesthesia
  - and H<sub>2</sub> receptor antagonists: review article (Williams), 264
- *cardiovascular*
  - estimate of risk of, in surgery: clinical report (Paiment *et al.*), 61
  - influence of narcotic agents used in, on arterial hypertension following coronary artery surgery (Hardy *et al.*), 370
  - pre-operative beta-blockade modification of the renin response to infra-renal aortic cross-clamping (Grant and Jenkins), 480
  - sufentanil and alfentanil for surgery (deLange *et al.*), 248
- *dental*
  - general anaesthesia in: editorial (Webb), 328
  - outpatient: clinical report (Kay), 406
- general*, *see* Anaesthetic techniques, inhalation
- *geriatric*
  - mental recovery from, general versus epidural: abst. (Riis *et al.*), 657
  - refresher course outline (Davenport), S51
- *induction*
  - with alfentanil, comparison with thiopental, midazolam and etomidate (Nauta *et al.*), 53
  - with alfentanil, correspondence (Schwinn, Zbindin and Skarvan), 452; reply (Stanley and Nauta), 452
- *obstetric*
  - Caesarean section
    - epidural lidocaine-HCl versus lidocaine-CO<sub>2</sub>: abst. (Hemmings *et al.*), S84
    - epidural morphine analgesia after: correspondence (Haavik), 108; reply (Rolbin), 108

- epidural morphine does not affect duration of action of epidural 2-chloroprocaine following (Brooks *et al.*), 598
- epidural morphine, effect of epinephrine addition: abst. (Martin *et al.*), S72
- ketamine, as an induction agent: abst. (Dich-Nielsen and Holasek), 101
- premedication with cimetidine-antacid combination (Motaweh and Bali), 593
- continuing medical education (University of Manitoba), 87
- continuous epidural infusion, abst. (Rosenblatt *et al.*), 56<sup>1</sup>
- continuous epidural infusion of bupivacaine at 6 ml per hour; clinical report (Taylor), 277
- foetus of the lamb *in utero*, uptake of halothane by (Biehl *et al.*), 24
- newborn, resuscitation of, at delivery: continuing medical education (Biehl), 95
- placental transport of metoclopramide, maternal and neonatal effects (Bylsma-Howell *et al.*), 487
- uptake of isoflurane by the foetal lamb *in utero*, effect on regional blood flow (Biehl *et al.*), 581
- *outpatient*
  - general for day care surgery: continuing medical education (Forbes), 545; regional (Bridenbaugh), 548
  - premedication (Dunn *et al.*), 331
- *paediatric*
  - anticholinergic premedication in: editorial (Steward), 325; correspondence (Blanc), 683; reply (Steward), 684
  - for day care surgery: continuing medical education (Johnson), 553
  - heart rate response to succinylcholine in, comparison of atropine and glycopyrrrolate (Lerman and Chinanga), 377
  - in cases of pyruvate dehydrogenase deficiency: clinical review (Dierdorf and McNiece), 413
  - in patients with upper respiratory tract infection: abst. (McLeod and Roy), S86

- in the Prader-Willi syndrome: clinical report (Yamashita *et al.*), 179; correspondence (Mayhew and Taylor), 565
  - neuromuscular blockade following intramuscular succinylcholine in (Sutherland, Bevan and Bevan), 342
  - oculocardiac reflex analysis in strabismus surgery (Blanc *et al.*), 360
  - outpatient, psychological effects of parents' presence during induction of: clinical report (Hamallah and Rosales), 286; correspondence (Birkham, Tadmoo and Simon), 679
  - premedication, comparison of oral pentazocine, diazepam and intramuscular pentazocine (Rita, Seleny and Goodarzi), 512
  - prostaglandins and: refresher course outline (Kehler), S4
  - recovery, effect of diazepam sedation on (Prato and Knill), 493
  - ventilation-perfusion relationships during: abst. (Lundh and Hedenstierna), 562
- Anaesthesiologists, extension of responsibilities (Gordon), 464
- Anaesthesiology, changes over forty years (Gordon), 460
- Anaesthetic techniques
- *epidural*
    - and anticoagulant therapy: abst. (Odoom and Sih), 561
    - and pulmonary hypertension: correspondence (Burrows), 445; reply (Mallampati), 446
    - continuous infusion of bupivacaine at 6 ml per hr. in obstetrics: clinical report (Taylor), 277
    - fentanyl does not cause delayed respiratory depression: abst. (Lam *et al.*), S78
    - for elective cholecystectomy in a patient with congenital heart disease and pulmonary hypertension: clinical report (Mallampati), 72
    - for obstetric analgesia: abst. (Rosenblatt *et al.*), 561
    - in Caesarean section (Brooks *et al.*), 598
    - with mixtures of bupivacaine and lidocaine: clinical report (Magee, Sweet and Holland), 175
    - hepatic function following, four techniques compared: abst. (Sear), 675
  - *hypotension*
    - continuous monitoring of oxygenation - elevation of an intravascular PO<sub>2</sub> electrode: abst. (Kierasiewicz and Lam), S62
    - induced, nitroprusside in acute myocardial infarction: abst. (Durrer), 309
    - isoflurane induced, effect on pulmonary shunting and physiological dead space: abst. (Nichols and Lam), S68
    - nitroglycerin delivery systems in obstetric anaesthesia: continuing medical education (Mutch), 98
  - *inhalation*
    - general in dentistry: editorial (Webb), 328
    - general, recovery from: abst. (Healy *et al.*), 675
  - *intravenous*
    - analgesics, a British method: conference summary (Corall), 258
    - analgesics, a California alternative to the British method: conference summary (Ross), 259
  - intubation, tracheal, a simple manoeuvre: clinical report (Ford), 191
  - neuroanaesthesia: refresher course outline (Saunders), S38
  - non-rebreathing, Bain circuit, rebreathing and end-tidal CO<sub>2</sub> during spontaneous breathing with (Spoerel), 148; correspondence (Imrie), 679; reply (Spoerel), 680
  - *regional*
    - continuous axillary brachial plexus block: clinical report (Sada, Kobayashi and Murakami), 201
    - for outpatient surgery: continuing medical education (Bridenbaugh), 548
- Anaesthetics
- colour coding of drug labels: correspondence (Bates), 109; reply (Fletcher), 109
- Anaesthetics, gases
- *nitrous oxide*
    - added to halothane reduces coronary flow and myocardial oxygen consumption in patients with coronary disease (Moffitt *et al.*), 5
    - and congenital heart disease: refresher course outline, S24
    - and high dose butorphanol, cardiovascular effects of (Stanley *et al.*), 337
    - anterior chamber sulfur hexafluoride volume increase during: abst. (Wolf and Capuano), S64
    - causing cardiovascular collapse: correspondence (Mayhew), 226; reply (Chinyanga), 226
    - effect of naloxone on convulsions in mice following withdrawal of (Manson *et al.*), 28; correspondence (Gillman and Lichtigfeld), 564; reply (Manson and Dyke), 565
    - uptake by man: correspondence (Lin), 447; reply (Swanson, Virtue and Sherrill), 448

## Anaesthetics, intravenous

- *alfathesin*

- cell-mediated immune suppression due to, in short-term anaesthesia (Rosenfeld *et al.*), 522
- effect on microbial oxidative function of human neutrophils (White *et al.*), 506

- *midazolam*

- cellular-mediated immune suppression due to alfathesin in short term anaesthesia (Rosenfeld *et al.*), 522

- *diazepam*

- effect on microbial oxidative function of human neutrophils (White *et al.*), 506

## - di-isopropylphenal and premedication agents: review (Clarke), 166

- effects on human neutrophil chemiluminescence (White *et al.*), 506- etomidate, anaesthetic induction with, compared to alfentanil (Nauta *et al.*), 53- *fentanyl*

- and congenital heart disease: refresher course outline, S24
- and morphine assessment of action in rats (Kissin, Kerr and Smith), 623
- droperidol and naloxone, effect on isolated neuron preparation: abst. (Kenefick and Roth), S83
- effects of high dose of, on renal haemodynamics in conscious dogs (Priano), 10
- renal haemodynamics: correspondence (Hunter and Hones), 450
- ventilatory response to CO<sub>2</sub> following, for aorto-coronary bypass, effect of nalbuphine: abst. (Ramsay *et al.*), S70

- immunity, cell-mediated suppression of, due to alfathesin (Rosenfeld *et al.*), 522- *ketamine*

- and congenital heart disease, refresher course outline, S24
- and premedication agents: review (Clarke), 166
- as induction agent for Caesarean section: abst. (Dich-Nielson and Holasek), 101
- psychomimetic reactions, low dose compared to neurolept-anaesthesia: abst. (Klausen *et al.*), 440
- repeat use, in a child for radiotherapy in the prone position: clinical report (Maltby and Watkins), 526
- methohexitone, effect on microbial oxidative function of human neutrophils (White *et al.*), 506

- *midazolam*

- and premedication agents: review (Clarke), 166

- and thiopentone for induction of anaesthesia in ill surgical patients, cardiovascular effects of (Lebowitz *et al.*), 19- as anaesthetic induction agent compared with alfentanil (Nauta *et al.*), 53

## - minaxolone, and premedication agents: review (Clarke), 166

- *morphine*

- and fentanyl, assessment of action in rats (Kissin, Kerr and Smith), 623

- effect on microbial oxidative function in human neutrophils (White *et al.*), 506- neurolept, compared with ketamine, psychomimetic reactions: abst. (Klausen *et al.*), 440- *thiopental*

- anaesthetic induction with, compared with alfentanil (Nauta *et al.*), 53

- bolus during carotid endarterectomy, barbiturate protection (Moffat *et al.*), 615

## - cerebral effects of, relation with fall in resting end-expiratory volume: abst. (Chartrand and Couture), S64

- *thiopentone*

- and midazolam, for induction of anaesthesia in ill surgical patients, cardiovascular effects of (Lebowitz *et al.*), 19

- effect on microbial oxidative function in human neutrophils (White *et al.*), 506

## Anaesthetics, Local

- *bupivacaine*

- and lidocaine mixtures for epidural anaesthesia: clinical report (Magee, Sweet and Holland), 174

## - continuous epidural infusion at 6 ml per hour in obstetrics: clinical report (Taylor), 277

## - induced convulsions in mice, flunitrazepam as a protection against (Vatashsky and Aronson), 32

- *chloroprocaine*

- epidural, duration of action following Caesarean section, effect of epidural morphine on (Brooks *et al.*), 598

## - potential neurotoxicity of: editorial (Covino), 111

- chronotropic and enotropic effects of: abst. (Feldman *et al.*), 310

## - hypersensitivity to, direct challenge test: abst. (Barer and McAllen), 102

- *lidocaine*

- and bupivacaine mixtures for epidural anaesthesia: clinical report (Magee, Sweet and Holland), 174

## - carbonated, stability of: abst. (Soderman), S71

- effects of, on hypoxic pulmonary vasoconstriction in dogs: abst. (Kozody and Cheney), S76
  - effects on microbial oxidative function in human neutrophils (White *et al.*), 506
  - HCl versus lidocaine CO<sub>2</sub> for epidural anaesthesia in Caesarean section: abst. (Hemmings), S84
  - induced convulsions, flunitrazepam as a protection against in mice (Vatashsky and Aronson), 32
  - pharmacokinetics, effect of CPR on: abst. (Chow), 561
  - prevention of succinylcholine fasciculations and myalgia: abst. (Cole), S65
  - tetracaine, crystalline and liquid compared: abst. (Bridenbaugh), 220
- Anaesthetics, Narcotic
- naloxone, reversal of hypnotic effect and depressed baroreceptor reflex of halothane anaesthesia in the dog (Freye, Harting and Schenk), 235
- Anaesthetics, Volatile
- effects on tracheal mucociliary transport: abst. (Forrest and Chambers), S76
  - *enflurane*
    - and congenital heart disease: refresher course outline, S24
    - modification of chronotropic response by, during reversal of neuromuscular blockade (Samra *et al.*), 48
    - murine auto- and cross-tolerance to (Chalon *et al.*), 230
  - *halothane*
    - and congenital heart disease: refresher course outline, S24
    - effect of, on asphyxiated foetal lamb in utero (Yarnell *et al.*), 474
    - expiratory work during: abst. (Carli and Higgs), S77
    - foetal response to acute haemorrhage under: abst. (Ong *et al.*), S85
    - level of consciousness after cadaveric kidney transplant under (Casthely and Villanueva), 587
    - modification of chronotropic response by, during reversal of neuromuscular blockade (Samra *et al.*), 48
    - murine auto- and cross-tolerance to (Chalon *et al.*), 230
    - naloxone reversal of hypnotic effect and depressed baroreceptor reflex of, in the dog (Freye, Harting and Schenk), 235
    - nitrous oxide added to, in patients with coronary disease, reduced coronary flow and myocardial oxygen consumption (Moffitt *et al.*), 5
    - uptake of, in the foetal lamb in utero (Biehl *et al.*), 24
  - *isoflurane*
    - blood solubility of, measured by a multiple gas phase equilibrium technique (Knill *et al.*), 155
    - chemical regulation of ventilation during (Knill *et al.*), 607
    - expiratory work during: abst. (Carli and Higgs), S77
    - murine auto- and cross-tolerance to (Chalon *et al.*), 230
    - uptake of, by foetal lamb in utero, effect on regional blood flow (Biehl *et al.*), 581
- Analgesia
- cellular activity and mechanism of: conference summary (Roth), 256
  - continuous intraspinal narcotic, complications of: correspondence (Combs *et al.*), 315
  - effect of clonidine on: abst. (Milne *et al.*), S83
  - *postoperative*
    - comparison of epidural meperidine, fentanyl and morphine: abst. (Rutter *et al.*), 101
    - patient demand, control by nalbuphine versus meperidine (Sprigge and Otton), 517
    - with oral controlled-release morphine: abst. (Chmielewski and Smith), 102
- Analgesics
- *alfentanil*
    - catecholamine and cortisol response to, during coronary artery surgery (deLange *et al.*), 248
    - pharmacokinetic profile compared with meperidine, morphine and fentanyl: conference summary (Stanski), 257
  - *fentanyl*
    - advantages of alfentanil and sufentanil over, for coronary artery surgery (deLange *et al.*), 248
    - and its analogues, measurement of plasma concentration: conference summary (Phipps), 261
    - in coronary artery surgery, incidence of hypotension following (Hardy), 370
    - measurement of plasma concentration, three techniques compared (Phipps *et al.*), 162
    - pharmacokinetic profile compared with morphine, meperidine and alfentanil: conference summary (Stanski), 257
    - in anaesthetic practice: conference summary (Davies and Strunin), 255

- in chronic pain relief: conference summary (Clarke), 260
  - *meperidine*
    - pharmacokinetic profile compared with morphine, fentanyl and alfentanil: conference summary (Stanski), 257
    - properties of, compared with amitriptyline and phenelzine in mice (Lee *et al.*), 501
    - versus nalbuphine for postoperative analgesia (Sprigge and Otton), 517
  - *morphine*
    - effect on convulsions in mice following withdrawal from nitrous oxide (Manson *et al.*), 28; correspondence (Gillman and Lichtigfeld), 564; reply (Manson and Dyke), 565
    - epidural, effect on duration of action of epidural 2-chloroprocaine following Caesarean section (Brooks *et al.*), 598
    - epidural, for analgesia after Caesarean section: correspondence (Haavik), 108; reply (Rolbin), 108
    - in coronary artery surgery, incidence of arterial hypertension following (Hardy *et al.*), 370
    - oral, controlled for postoperative analgesia: abst. (Chmielewski and Smith), 102
    - pharmacokinetic profile compared with meperidine, fentanyl and alfentanil: conference summary (Stanski), 257
    - premedication for kidney transplant under halothane anaesthesia (Casthely and Villanueva), 581
  - nalbuphine versus meperidine for postoperative pain analgesia (Sprigge and Otton), 517
  - *narcotic*
    - butorphanol, high doses plus N<sub>2</sub>O anaesthesia, cardiovascular effects of (Stanley *et al.*), 337
    - epidural and intrathecal: continuing medical education (Martin, Lamarche and Tetrault), 662
    - intubation of H<sub>2</sub> receptor antagonists to: conference summary (Williams), 262
  - nitrous oxide for refractory pain: abst. (Sear *et al.*), 676
  - sufentanil, catecholamine and cortisol responses to, during coronary artery surgery (deLange *et al.*), 248
  - zomepirac, as a premedicant, 3 dose regimens (Dunn *et al.*), 331
- Antagonists**
- physostigmine, atrial fibrillation following: clinical report (Maister), 419
  - *narcotic*
    - naloxone
      - effect on convulsions in mice following nitrous oxide withdrawal (Manson *et al.*), 28, correspondence (Gillman and Lichtigfeld), 564; reply (Manson and Dyke), 565
      - effect on foetal circulatory response to hypoxaemia: abst. (LaGamma *et al.*), 310
  - *neuromuscular relaxants*
    - anticholinesterases
      - of succinylcholine phase II block: editorial (Donati and Bevan), 569
      - reversal of succinylcholine induced apnoea with: clinical report (Bevan and Donati), 536
    - endorphanium, reversal of succinylcholine induced apnoea with: clinical report (Bevan and Donati), 536
    - neostigmine
      - reversal of neuromuscular blockade, modification of chronotropic response during, by halogenated anaesthetics (Samra *et al.*), 48
      - reversal of succinylcholine apnoea with: clinical report (Bevan and Donati), 536
      - reversal of succinylcholine phase II block by, compared with pancuronium (Fetter, Donati and Bevan), 575
- Antiarrhythmics**
- propranolol, effects of, in aminophylline toxic dogs (Friesen and Bonet), 124
  - verapamil (Kraynack, Lawson and Gintaulas), 242; effects of in aminophylline toxic dogs (Friesen and Bonet), 124
- Anticholinergics**
- antimuscarine drugs, in oculocardiac reflex studies in infants and children (Blanc), 350
- Anticholinesterases, see Antagonists, neuromuscular relaxants**
- Anticoagulants, see Blood**
- Anti convulsants**
- flunitrazepam, protects mice against lidocaine and bupivacaine induced convulsions (Vatashsky and Aronson), 32
- Asphyxia, see Complications**
- Aspiration, see Complications**
- Aspirin, and pre-operative blood loss: abst. (Ferraris and Swanson), 440**
- Ataractics**
- antidepressants, tricyclic; amitriptyline in mice, analgesic properties of (Lee *et al.*), 501; tricyclic phenelzine in mice, analgesic properties of (Lee *et al.*), 501
- Atracurium besylate, see Neuromuscular relaxants**

Bacteria, bioluminescence, effect of intravenous anaesthetic agents on (White *et al.*), 506

Bain system, see Anaesthetic techniques, Non-rebreathing; Equipment, Circuits

Barbiturates, see Hypnotics

#### Blood

– anticoagulant therapy and epidural analgesia: abst. (Odoon and Sih), 561

– coagulation

– heparin reversal in man, protamine administration for (Milne *et al.*), 347

– protamine, intraaortic versus intravenous administration for heparin reversal in man (Milne *et al.*), 347

– refresher course outline (Naiman), S11

– loss, aspirin usage and perioperative: abst. (Ferraris and Swanson), 440

– plasma

– fibronectin levels, effect of cardiopulmonary bypass on: abst. (Gotta *et al.*), S73

– sulfate conjugated catecholamines during anaesthesia: abst. (Marty *et al.*), S82

– pressure

– drug effects

– midazolam and thiopentone as induction agents in anaesthesia for ill surgical patients (Lebowitz *et al.*), 19

– nitrous oxide and halothane in patients with coronary disease (Moffitt *et al.*), 5

– protamine for reversal of heparin in man (Milne *et al.*), 347

– transfusion

– blood component therapy in anaesthetic practice: review article (Blajchman, Herst and Perrault), 382

– services of the Canadian Red Cross: editorial (Matthews), 322

– stored blood, 386; 'group-and-serum' versus cross-match techniques: review article (Kelton, Perrault and Blajchman), 641

– viscosity, increased, effect on ventricular function when pulmonary vascular resistance is elevated: abst. (Ghignone *et al.*), S74

Body position, see Position

Brachial plexus block, see Anaesthetic techniques, regional

#### Brain

– convulsions in mice, effect of naloxone and morphine on, following withdrawal from nitrous oxide (Manson *et al.*), 28; correspondence (Gillman and Lichtigfeld), 546; reply (Manson and Dyke), 565

– electroencephalography, power spectral analysis, study of naloxone in the reversal of hypnotic effect and depressed baroreceptor reflex action of halothane (Freye, Hartung and Schenk), 235

– endorphin withdrawal as possible mechanism influencing the effect of naloxone and morphine on convulsions in mice following withdrawal from nitrous oxide (Manson *et al.*), 28; correspondence (Gillman and Lichtigfeld), 564; reply (Manson and Dyke), 565

  - interactions in anaesthesia, 304
- *H<sub>2</sub> receptor antagonists*
  - and anaesthesia: review article (Williams), 264
  - interactions with narcotics: conference summary (Williams), 262

Hormones

- catecholamine, responses to sufentanil-O<sub>2</sub> and alfentanil-O<sub>2</sub> anaesthesia during coronary artery surgery (deLange *et al.*), 248
- corticosteroid responses to sufentanil-O<sub>2</sub> and alfentanil-O<sub>2</sub> anaesthesia during coronary artery surgery (deLange *et al.*), 248

Humidifiers, see Equipment

Hydroxyzine, see Premedication

Hypnotics, benzodiazepines

- diazepam, sedation reduces functional residual capacity and alters distribution of ventilation in man (Prato and Knill), 493

Hyperthermia

- following anaesthesia, associated with abnormal muscle characteristics: clinical report (Kripke *et al.*), 290
- following anaesthesia, dantrolene control of: clinical report (Kripke *et al.*), 290
- malignant, postoperative: clinical report (Grenberg, Edelist and Gordon), 273
- malignant pyrexia, postoperative dantrolene therapy: clinical report (Schulte-Sasse, Hess and Eberlein), 635

Hypnotics

- barbiturate protection of brain during carotid endarterectomy (Moffat *et al.*), 615
- pentobarbitone treatment of postpartum stroke: clinical report (Caseby), 77

Hypoxaemia, see Complications; Lung

Induction, see Anaesthesia

Infarction, see Heart, coronary occlusion

Intubation

- nasotracheal, fever in: abst. (Knodel and Beekman), 309
- tracheal, clinical signs to predict difficult: correspondence (Mallampati), 316

Ions

- *calcium*
  - channel blockers; pharmacology and clinical applications: refresher course outline (Mizgala), S5
  - verapamil, effect on non-cardiac excitable membranes (Kraynack, Lawson and Gintautas), 242

Isoflurane, see Anaesthetics, Volatile

Ketamine, see Anaesthetics, Intravenous

Kidney

- blood flow, effects of high-dose fentanyl on, in conscious dogs (Priano), 10
- renal haemodynamics with fentanyl: correspondence (Hunter and Jones), 450; reply (Priano), 451
- transplantation, levels of consciousness after, under halothane anaesthesia (Casthely and Villanueva), 587

Lidocaine, see Anaesthetics, Local

Liver

- anaesthetic considerations in common problems: continuing medical education (Strunin and Davies), 208
- cirrhosis (end-stage liver disease) transplantation for, a model for anaesthetic management of: refresher course outline (Waterman), S34
- hepatic function after anaesthesia: abst. (Sear *et al.*), 675

Lorazepam, see Premedication

Lung

- blood flow, effect of body position on, in infants: abst. (Heaf *et al.*), 562
- blood flow, effect of body position on, in pleural effusion: abst. (Sonnenblick *et al.*), 562
- compliance, following cardiopulmonary bypass, effect of continuous airway pressure with oxygen on (Hewson and Shaw), 37
- function, effect of change in body position on: continuing medical education (Coonan and Hope), 424
- functional residual capacity reduced by diazepam sedation (Prato and Knill), 493
- functional residual capacity, variable and non-constant fall during anaesthesia, studies of: abst. (Chartrand and Couture), S64
- hypoxaemia created by pulmonary oedema after pulmonary microemboli in dogs (Martineau and Noble), 117

- oedema: refresher course outline (Noble), S46, after microemboli in dogs, causing hypoxaemia (Martineau and Noble), 117, measurements in presence of pulmonary emboli and PEEP: abst. (Kay and Noble), S75
- pulmonary artery catheterization via the internal jugular vein, thrombosis following: abst. (Chastre *et al.*), 101
- pulmonary artery hypertension, low thoracic epidural anaesthesia for elective cholecystectomy in a patient with: clinical report (Mallampati), 72
- pulmonary mechanics and Beta blockers: abst. (Foley *et al.*), 439
- pulmonary vascular resistance: effect of increased viscosity on right ventricular function when PVR is elevated: abst. (Ghignone *et al.*), S74; effect of lidocaine on, under normoxic and hypoxic conditions: abst. (Kozody and Cheney), S76
- trachea: cilia function, effect of high frequency ventilation on, abst. (Forrest and Chambers), S77; tumour, causing airway obstruction, cardiopulmonary bypass prior to anaesthesia: clinical report (Jensen, Milne and Salerno), S76
- tracheal mucociliary transport, effect of volatile anaesthetics on: abst. (Forrest and Chambers), S76
- ventilation: effect of 100% oxygen breathing on: abst. (Cherry and Cotton), S68; perfusion and stroke volumes, effect of diazepam sedation on (Prato and Knill), 493
- water, see oedema

#### Measurement techniques

- electrodes, carbon dioxide, evaluation of transcutaneous PCO<sub>2</sub> measurements during anaesthesia: abst. (Smedstead), S63
- gas chromatography for measurement of plasma fentanyl concentrations (Phipps *et al.*), 162
- of fentanyl plasma concentrations, using RIA and GLC: conference summary (Phipps), 261
- of lung water, in presence of pulmonary emboli and PEEP: abst. (Kay and Noble), S75
- radioimmunoassay for measurement of plasma fentanyl concentrations (Phipps), 162

Membranes, muscle nerve synapse, effect of verapamil on, in cats (Kraynack, Lawson and Gintautas), 242

Meperidine, see Analgesia

#### Metabolism

- bromide, after kidney transplant under halothane (Casthely and Villanueva), 587
- halothane, after transplant (Casthely and Villanueva), 587

- pyruvate dehydrogenase deficiency and anaesthesia: clinical report (Dierdorf and McNiece), 413

Narcotics, see Analgesics, Narcotic

Neostigmine, see Antagonists, neuromuscular relaxants

Nerve stimulator, see Equipment

Neuroanaesthesia, see Anaesthetic techniques

Neuromuscular relaxants

- atracurium besylate, studies in normal patients and in cases of hepatic and renal failure: abst. (Ward *et al.*), S81
- neuromuscular blocking drugs: refresher course outline (Bevan), S56
- ORG NC45 compared with succinylcholine for short intra-abdominal operations (Gyasi *et al.*), 132
- pancuronium
  - and succinylcholine phase II block, compared, neostigmine antagonism (Futter, Donati and Bevan), S75
  - requirements during hypothermic cardiopulmonary bypass: abst. (Futter *et al.*), S73
- succinylcholine
  - adverse effects, reduction by oral diazepam premedication (Davies), 603
  - and pancuronium, phase II block, compared, neostigmine antagonism (Futter, Donati and Bevan), S75

- apnoea, reversal with anticholinesterases: clinical report (Bevan and Donati), 536
- compared with ORG NC45 for short intra-abdominal operations (Gyasi *et al.*), 132
- heart rate response to, in children, pretreated with atropine and glycopyrrolate (Lehrman and Chin-yanga), 377
- intramuscular, in infants, neuromuscular blockade in (Sutherland, Bevan and Bevan), 342
- phase II block, anticholinesterase antagonism of: editorial (Bevan and Donati), 569
- Neuromuscular transmission, verapamil, blocking action of, in cats (Kraynack, Lawson and Gintautas), 242
- Newborn, see Anaesthesia, Obstetric
- Nitroglycerin, see Anaesthetic techniques, hypotensive; Surgery, cardiac
- Nitroprusside, see Anaesthetic techniques, hypotension, induced
- Nitrous oxide, see Anaesthetics; Gases; Analgesia
- Oculocardiac reflex, analysis in infants and children (Blanc *et al.*), 360; correspondence (Blanc), 683
- ORG NC45, see Neuromuscular relaxants
- Organizations
  - Anaesthesia History Association: correspondence (Calverley and Maltby), 564
  - Canadian Anaesthetists' Society, Annual Meeting Supplement: editorial (Craig), 229
  - Canadian Anaesthetists' Society Journal; 'A time for change': editorial (Craig), 3
  - Canadian Anaesthetists' Society Journal, Roderick A. Gordon, Editor, 1952-1982, 1
  - Canadian Anaesthetists' Society Medal (Richard G.B. Gilbert), 453
  - Canadian Anaesthetists' Society, opinion survey on anaesthetic equipment: editorial (Sloan), 458; results - survey report (Neufeld and Johnson), 469
  - Canadian Anaesthetists' Society, President's Message, 111
  - Canadian Medic-Alert Foundation, special article (Stevenson), 573
  - Canadian Red Cross Society Blood transfusion services: editorial (Matthews), 322
  - St. John Ambulance, 1883-1983 (Keenan), 466
- Outpatient, see Anaesthesia; Surgery
- Oxygen
  - effects of breathing 100%, on multiple breath nitrogen wash-in curve: abst. (Cherry and Cotton), S68
  - transport, use of a perfluorochemical fluid in pre-operative treatment of anaemic patients: abst. (Tremper *et al.*), 440
- PEEP, see Ventilation, positive-end-expiratory pressure
- Pacemakers, see Heart
- Pharmacokinetics
  - age factors in, 302; and muscle relaxants, S59; definition, 30; drug interactions and, 304; history, 300
  - narcotic: conference summary (Stanski), 257
  - of atracurium besylate: abst. (Ward *et al.*), S81
  - principles in anaesthesia: continuing medical education (Moffat), 300
  - uptake, of halothane by the foetal lamb *in utero* (Biehl *et al.*), 24
- Pharmacology
  - aminophylline, sympathetic effects of: abst. (Vestal *et al.*), 439
  - chemotherapeutic agents, pulmonary toxication of, anaesthetic and postoperative implications-review article (Klein and Wells), 399
  - clonidine, effect on analgesia and opiate withdrawal in the rat: abst. (Milne *et al.*), S83
  - Phenelzine, see Ataractics, Antidepressants, tricyclic
  - Physostigmine, see Antagonists
  - Placenta, see Anaesthesia, obstetric
- Pain
  - chronic, analgesics, place of, in relief: conference summary (Clarke), 260
  - chronic, assessment protocol, for medico-psychosocial evaluation: clinical report (Catchlove and Ramsay), 531
  - continuous intraspinal narcotic analgesia to alleviate, complications: correspondence (Coombs *et al.*), 315
  - experimental, acute, analgesic properties of meperidine, amitriptyline and phenelzine in mice (Lee *et al.*), 501
  - mechanism of, in analgesia: conference summary (Roth), 256
  - postoperative
    - following spinal fusion in adolescents: transcutaneous electric nerve stimulation: abst. (Finley and Steward), S67
    - nalbuphine versus meperidine for control (Sprigge and Otton), 517
  - refractory, nitrous oxide analgesia for: abst. (Fosburg and Crone), 676
- Pentobarbitone, see Hypnotics
- Perfusion, see Lung, blood flow; Ventilation
- Pheochromocytoma, see Surgery
- Position
  - body position, change of, cardio-respiratory effects of: continuing medical education (Coonan and Hope), 424
  - body position, effect on gas exchange in infants: abst. (Heaf *et al.*), 562

- body position, effect on gas exchange in pleural effusion: abst. (Sonnenblick *et al.*), 562
- prone, repeat ketamine anaesthesia of a child for radiotherapy in: clinical report (Maltby and Watkins), 526
- Posture, see Position
- Potency, anaesthetic, tolerance to volatile anaesthetics (Chalon *et al.*), 230
- Pregnancy
  - complications, coma, postpartum stroke treated with high dose pentobarbitone therapy: clinical report (Caseby), 77
  - effect of halothane on asphyxiated foetal lamb *in utero* (Yarnell *et al.*), 474
  - foetal circulatory response to hypoxaemia, effects of naloxone on: abst. (LaGamma *et al.*), 310
  - foetal responses to acute haemorrhage under halothane anaesthesia: abst. (Ong), S85
  - foetus and its environment, antepartum assessment of: continuing medical education (Manning), 88
  - foetus, intrapartum monitoring: continuing medical education (Ong and Bradford), 91
- Premedication
  - anticholinergic, for infants and children: editorial (Steward), 325; Correspondence (Blanc), 683; reply (Steward), 684
  - cimetidine-antacid combination for elective Caesarean section (Okasha, Motaweh and Bali), 593
  - diazepam and intravenous induction agents: review (Clarke), 166
  - diazepam, oral, reduces incidence of post-succinylcholine muscle pain (Davies), 603
  - hydroxyzine versus midazolam for intramuscular (Fragen *et al.*), 136
  - intramuscular pentazocine-atropine, compared with intravenous diazepam-atropine and pentazocine in paediatrics (Rita, Seleny and Goodarzi), 512
  - lorazepam, and intravenous induction agents (Clarke), 166; sublingual: abst. (Gale *et al.*), 676
  - metoclopramide, placental transport, maternal and foetal effects (Bylsma-Howell *et al.*), 487
  - midazolam versus hydroxyzine for intramuscular (Fragen *et al.*), 136
  - oral
    - diazepam-atropine, pentazocine-atropine and intramuscular pentazocine compared in paediatrics (Rita, Seleny and Goodarzi), 512
    - zomepric, comparison of three dosage regimens (Dunn *et al.*), 331
  - see also Analgesics
- Propranolol, see Antiarrhythmics; Sympathetic nervous system, sympatholytic agents
- Prostaglandins, and anaesthesia: refresher course outline (Kehler), S14
- Protamine, see Blood coagulation
- Protein, globulin, calmodulin, roles in skeletal muscle function: review article (Walsh), 390
- Pulmonary, see Lung
- Pyruvate, see Metabolism
- Radioimmunoassay, see Measurement techniques
- Radiotherapy, young child in prone position, repeat ketamine anaesthesia for: clinical report (Maltby and Watkins), 526
- Receptors, chemoreceptors, effect of isoflurane on (Knill *et al.*), 607
- Respiration, see Ventilation
- Resuscitation, see Complications
- Risk, estimate in cardiac surgery: clinical report (Palement *et al.*), 61
- Ritodrine, see Sympathetic nervous system, sympathomimetic agents
- Sedation, diazepam, measurement of ventilation and static lung volumes during (Prato and Knill), 493
- Solubility, partition coefficients, isoflurane, measured by a multiple gas equilibrium technique (Knill *et al.*), 155
- Succinylcholine, see Neuromuscular relaxants
- Sufentanil, see Analgesics
- Surgery
  - abdominal
    - cardiovascular effects of high dose butorphanol-nitrous oxide anaesthesia before and during (Stanley *et al.*), 337
    - ventilation-perfusion relationships during: abst. (Lundh and Hedenstierna), 562
    - intra-abdominal, comparison of ORG NC45 and succinylcholine for (Gyasi *et al.*), 132
  - cardiac
    - nitroglycerin, intravenous, use in cardiopulmonary bypass surgery (Townsend), 142
    - nitroglycerin, myocardial and systemic effects of, given awake and during (Moffitt *et al.*), 352
    - nitroglycerin versus nitroprusside in post-bypass hypertension: abst. (Flaherty), 219
  - cardiovascular
    - aortic clamping, infrarenal, renin response to, modified by preoperative beta-blockage (Grant and Jenkins), 480
    - aortocoronary bypass, ventilatory response to CO<sub>2</sub> following high dose fentanyl for: effect of nalbuphine, abst. (Ramsay *et al.*), S70

- cardiopulmonary bypass
  - continuous airway pressure with oxygen to minimize the metabolic lesion of 'pump lung' during (Hewson and Shaw), 37
  - hypothermic, pancuronium requirements during: abst. (Futter *et al.*), S73
  - intravenous nitroglycerin in (Townsend *et al.*), 142
  - plasma fibronectin during: abst. (Gotta *et al.*), S73
- classification of risk in: clinical report (Paient *et al.*), 61
- coronary artery
  - arterial hypertension following, influence of narcotic agent used in anaesthesia (Hardy *et al.*), 370
  - bypass, carbon dioxide production following: abst. (Donati *et al.*), S66
  - bypass, nitroglycerin versus nitroprusside for post-bypass hypertension: abst. (Flaherty *et al.*), 219
  - effect of alfentanil-O<sub>2</sub> and sufentanil-O<sub>2</sub> anaesthesia on plasma catecholamines and cortisol during (de Lange *et al.*), 248
  - myocardial and systemic effects of nitroglycerin given awake and during (Moffitt *et al.*), 352
- carotid endarterectomy, thiopental bolus before clamping: abst. (Moffat), S79; thiopental bolus during, rational drug therapy (Moffat *et al.*), 615
- cholecystectomy, in a patient with congenital heart disease and pulmonary hypertension, low thoracic epidural anaesthesia: clinical report (Mallampati), 72
- gynecology, lithotomy position causing femoral neuropathy: clinical report of three cases (Tondare *et al.*), 84
- hepatectomy, intraoperative pulmonary tumor embolism after: clinical report (Blanloeil *et al.*), 69
- liver transplantation, anaesthesia for: a model: refresher course outline (Waterman), S34
- non-cardiac, in patients with prior myocardial revascularization, complications: clinical report (Cruchley *et al.*), 629
- out-patient
  - day care surgery: continuing medical education (Hatch), 542
  - day care surgery for infants and children: continuing medical education (Johnson), 553
  - postoperative problems, prophylaxis and management of: continuing medical education (Edelist), 558
  - selection of patients for day care surgery: continuing medical education (McTaggart), 542
- pheochromocytoma, preoperative management with prazosin and propranolol: abst. (Cubeddu *et al.*), 310
- propranolol infusion following: abst. (Smulyan *et al.*), 101
- spinal fusion, transcutaneous electric nerve stimulation (TENS) for control of postoperative pain: abst. (Finley and Steward), S67
- strabismus in infants and children, analysis of oculo-cardiac reflex (Blanc *et al.*), 360; correspondence (Blanc), 683
- Sympathetic nervous system
  - aminophylline toxic dogs, antiarrhythmic effects of verapamil and propranolol in (Friesen and Bonet), 124
  - atropine and glycopyrrolate, effect on succinylcholine induced heart rate changes in children (Lerman and Chinyanga), 377
  - effects of aminophylline on: abst. (Vestal *et al.*), 439
  - epinephrine, addition to epidural morphine in obstetrical analgesia: abst. (Martin *et al.*), S72
  - glycopyrrolate and atropine, effect on succinylcholine induced heart rate changes in children (Lerman and Chinyanga), 377
  - sympatholytic agents
    - propranolol, infusion following surgery: abst. (Smulyan *et al.*), 101
    - propranolol, preoperative effect on modification by preoperative beta-blockage of renin responses to infrarenal aortic cross-clamping (Grant and Jenkins), 480
  - sympathomimetic agents
    - ritodrine, intravenous, dangers in diabetic patients: abst. (Mordes *et al.*), 102
- Syndromes, see Complications
- Tamponade, see Heart; Complications
- Tetracaine, see Anaesthetics, Local
- Thiopentone, see Anaesthetics, Intravenous
- Thromboembolism, see Embolism
- Toxicity
  - aminophylline induced ventricular arrhythmias in dogs, effects of verapamil and propranolol on (Friesen and Bonet), 124
  - neurotoxicity of local anaesthetics: editorial (Covino), 111
- Trachea, see Lung
- Transfusion, see Blood
- Transplantation, see under Surgery, name of organ
- Trauma, see Complications
- Uterus
  - blood flow, effect of uptake of isoflurane by the foetal lamb on (Biehl *et al.*), 581

## Ventilation

- *artificial*
  - bronchiolectasis following: abst. (Salvin *et al.*), 309
  - use of esophageal obturator airway: clinical report (Donen *et al.*), 194
- carbon dioxide response, hypoxic response, regulation during isoflurane sedation and anaesthesia (Knill *et al.*), 607
- continuous positive airway pressure with oxygen minimizes the metabolic lesions of 'plumb lung' (Hewson and Shaw), 37
- dead space, pulmonary, effect of isoflurane induced hypotension on: abst. (Nichols and Lam), S68
- high frequency (HFV) on ciliary beat frequency: abst. (Forrest and Chambers), S77
- perfusion relationships during anaesthesia and abdominal surgery: abst. (Lundh and Hedenstierna), 562
- *positive-end-expiratory-pressure*
  - lung water measurements in the presence of: abst. (Kay and Noble), S75
  - mechanism of cardiovascular effects: abst. (Rankin *et al.*), 219
- respiration spontaneous during halothane and isoflurane anaesthesia (Carli and Higgs), S77
- respiratory system, effect of change in body position on: continuing medical education (Coonan and Hope), 424
- shunting, pulmonary, effect of isoflurane induced hypotension on: abst. (Nichols and Lam), S68
- spontaneous, versus intermittent mandatory: abst. (Prakash *et al.*), 219
